## CELEBRATE ORANGE DAY IN THE "BUFFALO" TOWN; BRING YOUR FRIENDS

### CROPS MAKING GOOD PROGRESS IN THIS DISTRICT

Spring Wheat Forty Four  
Inches High Is Brought  
Into Star Office

Giving tangible evidence of the wonderful growth of crops in the Wainwright district, a sample of spring wheat measuring no less than forty inches in height and already to head out, was brought into the STAR office on Monday of this week. The wheat in question was grown on the farm of James Milliken, sec. 12, 46, 6. From all points in the district splendid reports in regard to the progress of the crops, are being received. Farmers state that the rain-fall has not been a drop too much, while the warm weather has proved an incentive to wonderful development.

### SUNDAY SERVICES IN LOCAL CHURCHES

At St. Andrews Presbyterian church on Sunday, short, summer, savoury sermons, which you will enjoy will be preached by the pastor. The usual sermon story for the boys and girls will be given at the morning service and the choir will render special music. The Sunday school will be held at 2:30 in the afternoon. A special feature of the evening service will be a solo by Mrs. Murphy.

Rev. Kells Swenerton, the new pastor of the Grace Methodist church, delivered his first address in Wainwright on Sunday last. He created a good impression with the members of his congregation. The evening service was especially interesting and well attended. The music consisted of an anthem, "I'm a Pilgrim" which included an obligato solo by Mrs. Little with quartette and chorus. Miss Parsons rendered a solo entitled, "Absent", while a trio, "Saviour Breathe an Evening Blessing" was rendered by Miss Parsons, Mrs. Clark and Mrs. Little. On Sunday next, the special music will be of a similar character and the services throughout will be of a patriotic nature.

### WINDOW DRESSING COMPETITION JULY TWELFTH FEATURE

A local competition in connection with the Orange celebration that promises to create an unusual amount of interest, will be that for the best dressed local store window, the competition to be open to all storekeepers in Wainwright. A first prize of \$10 and a second of \$5 will be awarded the best two entries. The competition will be judged by two of the incoming Orangemen on the Twelfth of July.

Preparations are now fast being completed for the big event and with good weather it is expected that record crowds will be visitors to Wainwright on celebration day.

"Special sale of trimmed millinery for the Twelfth of July. Tipperary hats "Glangary caps" and "military styles" 50c. each. "All new stock". The Wright Building Third Ave.

### BOMBS FOUND BY POLICE AFTER RAID

A large number of the bombs dropped by the Zeppelins have been picked up unexploded. In addition to the small amount of damage done so far by these raids the military value has practically been without results.

### Wainwright Boys Now At Shorncliffe Camp; All Are Doing Well

Wainwright soldier boys of the 49th battalion of the Canadian expeditionary force, who arrived in England recently, are now stationed at the military camp at Shorncliffe where some 36,000 uniformed men are assembled. According to letters received locally, the local boys are all in good health and spirits.

After giving a description of the voyage across the Atlantic in which he told of various precautions taken in the event of a submarine attack Norman E. Cook, in a letter to his relatives here, dated June 15th states: "We have arrived in Plymouth harbor and the boys are beginning to unload. We were escorted in by two torpedo boats and if you ever saw anything that could go, they sure could. "From the time we first saw them come over the horizon until they were alongside, it was just nine minutes. They travel over 50 miles per hour and all day yesterday they scouted around like dogs after birds, always within close distance. The harbor here is full of all kinds of battleships from torpedo boats to dreadnaughts.

L. R. Curry, of Main Street, accompanied by his wife and family, left town this afternoon for Port Huron. Following a short visit at this point they will journey to Cape, Mich. where they will stay until their return here in September.

J. Blair has issued an announcement that the elevator will be closed for several weeks, beginning July 8th. Mr. Blair will leave town on that date to receive further medical treatment for his wrist to which he received injury some time ago.

Mrs. O. E. Peterson, with daughter Leone and baby, have returned to Wainwright after an extended trip across the border. While absent Mrs. Peterson underwent an operation for appendicitis at the Mayo Brothers' hospital, Rochester.

Read the dollar bargains which appear on page 8. They will benefit you.

We are on our way to Shorncliffe. The green hedges show up fine and this is a beautiful country. Don't blame Englishmen for wanting to come back. Am struck on England and am going to see as much of it as possible. A spy was caught on board the night before last.

### MANY FRIENDS ARE PRESENT AT HAPPY EVENT

In celebration of the twenty fifth anniversary of their marriage, Mr. and Mrs. James Ward gave a pleasant party at their home on Friday evening of last week. The program of the evening opened with selections by the band given in the garden surrounding the residence, following which the guests adjourned to the house and formed whist parties. About 16 couple participated in the games, the prize winners being as follows: 1st ladies Mrs. J. W. Brown, booby prize, Mrs. H. Benks; 1st in gentlemen's class, Mr. J. W. Brown, booby prize, Mr. Jas. Madder. A dainty lunch was served at mid-night and music was given intermittently by Mrs. J. W. Brown and Mrs. Clark. The party adjourned with the singing of "Old Lang Syne" and the National Anthem.

Those in attendance were: Mr. and Mrs. H. Y. Pawling, Mr. and Mrs. H. W. McLeod, Mr. and Mrs. J. W. Brown, Mr. and Mrs. R. B. Rowman, Mr. and Mrs. V. E. Graham, Mr. and Mrs. J. B. Madder, Mr. and Mrs. W. S. Clark, Mr. and Mrs. H. C. King, Mr. and Mrs. J. L. Gorow and Mr. and Mrs. A. D. Ferguson, Mrs. E. Carbert, Mrs. Lally, Mrs. Shirley, Mrs. Davies, Mrs. McDonald, Mrs. Frates, Mrs. Rosholt, Mrs. Connors, Mrs. Livingstone, Mrs. McPhee and Messrs. C. T. Lally and H. Smart.

Local tennis enthusiasts will be interested to learn that the annual tennis tournaments for the championship of Alberta, will be held on the Edmonton Tennis Club grounds during the week commencing Monday, August 16th.

### DOMINION DAY TOWN'S BIRTH ANNIVERSARY

Town Was Born July 1st.  
1908 Of Strong And  
Healthy Parents

Thursday is July 1st, in other words Dominion Day, Canada's great day of the year. It will be ushered in as never before for fair Canada is in a state of war, is participating in the greatest war of all times. And she is playing her part well.

Thursday, July 1st, will also be the anniversary of Wainwright's birth, for, on July 1st 1908, our town, was born—a healthy child to Mr. Grand Trunk Pacific and Mrs. Alberta Canada. Thus, Thursday should find us rejoicing. Like new year's day it should find us making resolutions, not of the pie crust variety that are crumbled and laid away in a very few days, but those of a lasting character.

These resolutions should be that no matter how hard we have tried in the past to make Wainwright a better and bigger town our efforts in the future shall be stronger, shall surpass those of the past by leaps and bounds so that in after years we may retrospect and in so doing feel within us that we have played a part in the successful upbuilding of our community, and played it well.

### WILL PARADE

Arrangement of Wainwright and Gilt Edge will parade to the Anglican church on Sunday evening next where a special Orange address will be delivered by Rev. H. Asstier. Members of the order are asked to assemble at the lodgeroom at 7 o'clock where orders will be given for the parade. The service will begin at 7:30 o'clock as usual. Gilt Edge is asked to be as largely represented as possible.

### MAKE EARLY APPLICATION

All intending applicants for booth accommodation on the exhibition grounds on July 12th, should make early application for the reservation of their privilege. Applications should be addressed to J. D. Kaine, who is convener of the committee which has these arrangements in hand.

### OFFICIALS ISSUE WARNING

Officials of the Wainwright school board, through The STAR issue a notice of warning against young persons who have formed a habit of entering the school grounds for the purpose of picking flowers. The offense is much against the law and action will be taken should the practice be continued after this date.

### ATTENDS FORD BANQUET

For the purpose of attending the big event of the Ford Motor Company to be held in Calgary on Dominion Day, Herbert Smith left town for the Southern City on Tuesday. During the afternoon of Dominion Day, a large procession of Ford cars will be held while, during the evening, a big banquet will be tended to all Ford dealers operating in this province.

### LETTER TO RICHARD AYKROYD TELLS OF BIG ZEPPELIN RAID ON ENGLISH EAST COAST

Right from Hull on the east coast of England, where Zeppelins paid a visit on June 8th killing a hundred and five persons and injuring one hundred and fifteen others, comes a letter to Richard Aykroyd of this town, which has a bearing on the affair. The letter is written by James Ruthven, of Roberts and Ruthven Ltd, steam trawler owners, of Hull. Written two days after the visit of the dirigibles, it states in part: "We had a sad experience here two nights ago. Zepps came over and destroyed many buildings and houses, killing and wounding many, including women and children. The government kept the numbers quiet but we know. Last night a raid was intended and thousands left the city and spent the night in the fields with their children and infants but it is said our aeroplanes drove off the Zepps. All are determined to crush the enemy at any cost. The Humber is nearly full of destroyers to day in readiness should the Zepps try again to-night. I was in London on the 1st during the raid there. The people were quite calm. Here there is no panic whatever. These raids are of no military value and will only add to the retribution the scoundrels will have to endure when the day of reckoning comes, as come it assuredly will. We are just beginning to fight in earnest. They are desperate now."

### Examination Results For Several Classes At Wainwright School

Results of the various examinations conducted prior to the holidays at the Wainwright public schools have now been given out. The following is a list of the successful candidates in the classes conducted by Miss Bessie Parsons:

Grade 3 Sr. to 4, Kenneth Kenny, Eva Wiley, Sara Bobbington, Cecil McMillan, Howard Smith, Mildred Graham, Muriel Kemp, Dave Springer, Willie Gough, August Gehring, Emma Gehring, Owen Pigeon, Alec Thomas, Lizzie Gehring, Gertrude Burleigh, Miles Mabey. Grades 3 Jr. to Sr. 3, Dorothy Primrose, Ella Smith, Louis Compton, Willie Skinner, Lula Dowling, Mary Scofield, Addie Culley, Otto Dahlgren, Jack Bottaro.

Grade 2 Sr. to Jr. 3, Alice Parker, Sally Murray, Gertie Springer, Alymer Davies, Carolyn Rosholt, Jack Laird, Ernest Kenny, Frank Love, Elva Fenby. Those deserving creditable mention are Kenneth Kenny, Eva Wiley, Ella Smith, Dorothy Primrose, Otto Dahlgren and Jack Laird.

### RINK IS ADAPTED FOR BIG DANCE DOMINION DAY

Arrangements have now been completed for the big dance to be held in the skating rink on the evening of July 1st, the proceeds to go toward defraying the various expenses in connection with the local band. The event is expected to be an enthusiastic one and to attract a considerable crowd.

Men are now at work fitting up the floor of the rink which upon its completion will provide a large area for the dancers. In fact, the floor will be one of the largest in the province. The dance will be provided with good music by the Wainwright Citizens' Band and the Citizens Orchestra. Refreshments will be served by the Daughters of the Empire. A low admission fee has been set, this being 75c for gentlemen and free admission for ladies.

J. C. Shirley has taken charge of the barber shop and billiard room, his old stand on Main street.

Reference is made to the ad of the Palace Billiard hall. In it is contained all manner of bargains for the smoker.

A special meeting of the I.O.O.F. will be held on Monday evening of next week. Installation of officers will take place. All members are urged to be in attendance.

The Wainwright Agricultural Society will meet this afternoon and award the contract for the construction of the grand stand on the Exhibition grounds.

It is expected that a large number of local residents will visit Edmonton on Dominion Day, where a big celebration has been planned. Unfortunately, no special train arrangements could be made.

Miss Nellie McClung, the well known temperance speaker, will deliver an address on "Prohibition," in Wainwright, July 16. Further particulars will be given at a later date.

Lee Wells, of this town, has been appointed returning officer in Wainwright for the forthcoming election on prohibition. He will make his headquarters in the offices of Messrs. Graham and Company.

### STAR TO SUPPLY UNION JACKS TO DISTRICT PEOPLE

Big Movement Is On Foot  
To Increase Number  
Of Flags

A movement is on foot to place more Union Jacks in Canada than ever were seen before. In other countries on National holidays, celebrations and victories etc., flags are unfurled from almost every housetop and window. But on such occasions there is a scarcity of flags in Canada. Not because Canadians are not just as loyal as any other people, but because they have not had the opportunity to purchase a flag at a reasonable figure.

The STAR has taken a hand in the movement and has agreed to undertake the distribution of flags in this district and our readers can secure a real good Union Jack, in fast colors, size 5 x 3 for only \$1.10, or a year's subscription to the STAR with the Union Jack as a premium, for the small amount of \$2.00. Your orders should be placed now, for The STAR expects an extraordinary rush for these good old Union Jacks. Every person will need them soon to celebrate the big victories that are surely coming.

### DAIRY BUTTER MUST BE BRANDED SAYS PROVINCIAL ACT

Particular attention is called to all dairymen within the Wainwright district of the necessity of branding dairy butter. The following is quoted from The Dairy Industry Act of 1914, exact wording of extracts being as follows: "No person shall cut or pack dairy butter into blocks, squares or prints and wrap such blocks, squares or prints in parchment paper unless the said parchment paper is printed or branded with the words "dairy butter". "No person shall knowingly sell, offer, expose or have in his possession for sale: Any dairy butter packed in boxes similar to those used for the packing of creamery butter unless such packages are branded "dairy butter". Any dairy butter packed, moulded or cut into blocks, squares or prints and wrapped in parchment paper unless the said parchment paper is printed or branded with the words "dairy butter". All dairymen should place their orders now.

### WILL ENDEAVOR TO RUN SPECIAL COACH

Should an extra freight train be run east on Monday morning next, arrangements will be made by the G.T.P. to have an extra coach attached for the conveyance of passengers from Wainwright who wish to be present at the celebration to be held in Chauvin, Supt. Walton states that while there is no scheduled freight train east on Monday morning, a train is frequently run. Definite information in regard to this will be made known on Saturday afternoon. Should the train be conducted, passengers would return on No. 1 and tickets for the event would be fare and a third for parties of ten or more.

**GETTING DOWN TO REAL BUSINESS.  
WITH CONFIDENCE IN THE FUTURE.**

GETTING DOWN TO REAL BUSINESS  
WITH CONFIDENCE IN THE FUTURE

WITH CONFIDENCE IN THE FUTURE

## HAVING FAITH IN OUR NATURAL RESOURCES

**Sir Edmund Walker Strikes an Optimistic Note in Summing up**

**of Strength that Restore Confidence**

men's mood and in making up the Canadian situation, who can fail to be impressed by the fact that the inevitable must be faced. Half our country is in a state of economic depression. The inevitable includes the fact that the British empire is at a disadvantage in the world market. It includes the fact that Canada was not a party to the war, and that whether or not the war had come, there would have been a general recognition of the fact that the British empire was a major factor of business. Having recognized this, it is not surprising that the business on a new plane. Exaggerated values and rentals are disappearing. A better idea is being obtained of the value of money and of credit. In short, we are getting down to business.

War, naturally enough, effects trade, commerce, investment and business in general. It has had a very marked effect on the front last week, for instance, gave us a chance to increase confidence and business. It is true, I am afraid, that all know there can be only one result of this. It is that we must exchange his lot with that of a citizen of the United States. The confidence we have in the empire's strength is being replaced by a confidence in the United States.

Money is accumulating rapidly in the United States, and a growing call for stocks. The United States is a safe place for Canada, and in an excellent position. They will extend credit where it is demanded, and they will extend credit where it is not. The outlook for immediate future is not bad. Canada has had little difficulty in financing its requirements. The United States money market was efficient. The United States has made payments, both principal and interest are good. Economy is not being urged. The United States is encouraging the home demand. The United States is encouraging to increase their export trade. New trade channels are being cut. The United States is a safe place for Canada. The United States have already commenced against the United States. And there are numerous other factors. The strength in the Canadian situation is All.

## Unsinkable Ships

**Little Faith in Modern Devices for Keeping Vessels Afloat**

The London Post says that the rapacity with which the Lusitania sank has raised a new note of warning with regard to modern devices for helping to keep afloat ships in case of their being attacked by submarines.

It quotes Alexander Carlyle, who did much to raise the firm of Harland & Wolff, of Belfast, to the position it now occupies, as saying:

"I don't believe there is such a thing as an unsinkable ship. Neither do I believe such a ship will ever be built. It is a vain hope, and it is going to be absurd. How can you make 50-

Walker in the Monetary Times.

## Money in Live Stock

**Marked Increase in the Price of Beef and Hides Is Sure to Come**

Mr. Randolph Bruce, a well known rancher in Western Canada, has just returned from a tour of inspection of interesting opinions as to the effect that the war will have on the Canadian live stock market.

He says that the Canadian farmer has a good chance of making a profit for the armistice in the field with his live stock, and that there will be a marked increase in the price of beef, and those farmers who are raising cattle, and those who are raising horses, and those who are raising sheep, and those who are raising swine, and those who are raising poultry, and those who are raising other live stock, will all be able to make a profit.

He says that the Canadian farmer has a good chance of making a profit for the armistice in the field with his live stock, and that there will be a marked increase in the price of beef, and those farmers who are raising cattle, and those who are raising horses, and those who are raising sheep, and those who are raising swine, and those who are raising poultry, and those who are raising other live stock, will all be able to make a profit.

(for that is how you must look at it) when the metal has been battered into boards or even into splinters.

"There were plenty of lifeboats on board, but they were crowded at the time of the sinking and that did not suffice to launch all the boats," said the Lusitania's captain, Mr. Joseph Boxer, after three hours. I have little doubt that the lives of all aboard would have been saved had the ship not been killed by the explosion of the torpedo or who might have died of shock.

"The Lusitania was one of the great size of modern passenger vessels of the day," said Mr. Boxer, "and it took a long time to get them off in case of danger."

ture they want to see vessels much larger than the ones now in use. They have been built because of the difficulty in getting the smaller boats to accommodate the vessels beyond a certain size."

### Women's Wages

#### British Women Workers Asking For Equal Compensation With Men

The women of Great Britain have responded as they should to the call of duty. They have taken to the crops have entered into many situations where they have been before them are interpreters, dispensers, veterinary surgeons, chauffeurs, motor drivers, and even in the case of street car conductors, as well as workers in the usual lines of men.

When the "war" is over, all of these women will give up their jobs and go back to the home. But women will have gained a consciousness of ability which will be a part with what they want to do.

Today women leaders in industry are asking that men's work be improved or bread stult it will be the same. Among the advantages of the war is the fact that women have been mentioned by some of the leading cattle men. Firstly, younger cattle make heavier gains based on a similar amount of feed than old cattle. Secondly, the women inventors have turned fast, being turned out in eighteen months, where formerly it took two years. Thirdly, the new breeders under two years old sell as readily as steers, and finish more quickly.

As the census prove without shadow of a doubt, the population of Canada is steadily increasing. In 1901 there were 5,167,744 valued at \$1,000,000,000. In 1911 there were 7,278,490, or an average of \$21.90, an increase of \$478 per head. If it should be \$1,000,000,000 for the Dominion government, the Dominion government would have prices attained no higher figure either on the hoof or on the day. What it will be next year when the full effect of the war is felt

## Beating Back

The Business Man Who Can Satisfy  
Against Adverse Conditions Will

Chas. H. Endertown, who is probably the best known and wealthiest business man in the United States, recently told that city from New York, where he spent a few days on business. Dismissing great conditions in Western Canada, Mr. Endertown in his characteristic way said: "I am going against the bicycle craze begun I was persuaded to buy a bicycle in his way and on the following Saturday, never

### Seems Unreasonable

Criticizing the British navy for not providing adequate protection, the author gets no place. Obviously no navy in the world is large enough to commandeer the entire Mediterranean Sea canal; patrol the Mediterranean; and guard the Suez Canal. The author's English channel so closely that, although within a few miles of the base of the Strait of Gibraltar, the support was lost out of a number of German submarines. The author's guard transport ships carrying troops from Canada to England. Keep open the lines of communication to the commissars' supplies to France; and the shipping of the British fleet, bombard the Germans on the

war feet pennoned in the Kiel canal. The German navy, driven by German submarines, drove the British navy off the high seas; absolutely, the German navy, broke the British navy. Germany so effectively took the British navy. Germany admit not a particle of the German navy was supplied and reaching them by sea, and vessels in reserve to give battle to the British navy, and still have enough warships to act as escort to every German ship, and still have enough warships to even the British Navy—Sloux City, Iowa, Tribune.

**Good Roads in Alberta**

The policy of providing good roads for people to travel on is illustrated by the fact that since the province was organized in 1905 no fewer than 1,000 miles of roads have been built. These bridges are practically all

(for that is how you must look at it) when the metal has been battered in. There were plenty of lifeboats on board the Lusitania, but it was a question of time before the ship was forced to launch all the boats. That the Lusitania was not sunk in less than three hours, I have little doubt that the lives of all aboard would have been saved. The Lusitania was killed by the explosion of the torpedo or who might have died of shock.

The Lusitania was one of the great size of modern passenger vessels that carry so many people. It was a ship that was used them off in case of danger.

I am inclined to think that in the future, ships will be built that are larger than those which have already been built, because of the difficulty in finding a ship that can accommodate the vessels beyond a

beef.

In this connection it is interesting to note that fattening steers is becoming very popular in the United States where the market for beef is so large. The market for beef has been paid to methods of increasing production.

In the early days cattle were kept on the ranges from three to five years before they were sent to market. The use of thoroughbred bulls and the consequent improvement in the quality of the cattle, together with heavier grain feeding, has made it possible to put the cattle on the ranges from 13 to 20 months old. Experts are of the opinion that with the continued improvement in the quality of the cattle, it will be possible to market an even earlier date. Among the advantages of this method of fattening cattle are mentioned by some of the

## WE AT HOME WILL OWE OUR SOLDIERS MORE THAN WE CAN HOPE TO RETURN

BECAUSE SHE THOUGHT it would be a dangerous precedent to establish, Trustee Jennie Hill, of the Edmonton Public School Board, at its last meeting, opposed giving a job to a soldier who has just been invalided from the front. She opposed the appointment because other men would be coming back from the war soon, hundreds of them maybe, "and we should have to give them positions simply because they were former soldiers."

The STAR feels safe in asserting that Mrs. Jennie Hill's opposition will not meet with the favor of many loyal Edmontonians. Her objection is a cruel one to those soldiers who are now fighting to maintain our liberty. The former fighter who sought to be placed on the school board, simply asked for a job as caretaker and this to keep him from starvation.

Was he entitled to it? Let the STAR answer this question with a big YES INDEED, and let the STAR state here that when these preservers of liberty return, some of them in good health but many shattered in nerve and minus a limb, that it will be but the unbounded duty of every Canadian and Britisher who has remained at home, to see that these brave fellows are treated with every consideration possible. Do not let us have a reputation like they had in Britain following the Boer War, when soon after the welcome had been given the poor humans when returned home maimed and broken, they were left to eke out the best existence possible with little assistance from the rank and file, and those in a position to allot employment.

The STAR is pleased that Mrs. Jennie Hill, at that school board meeting, stood alone in her ideas. The STAR is pleased also that Trustee Gibbs advanced the following: "Every community owes a debt to these men and every community must help." His remarks were right in all their meanings. Certainly we at home—every single one of us—will owe more to these men when they return that we can ever hope to repay.

## THE REASON WILLIAM JENNINGS BRYAN KICKED

WILLIAM JENNINGS BRYAN, former secretary of state for the United States, went after the New York press in an awful manner at a pro-German meeting held in New York last week. But his reason for so doing is easily explained for William Jennings Bryan said: "For two years and three months I tried as best I could to assist the president in dealing with the most momentous questions that have ever come before the nation in its history. Never one day has the New York press given me credit."

This last sentence puts the former secretary of state's protest against the press in a nutshell. He is kicking merely because the papers of New York have not "boasted" him in the way he thought they should. This reason is a common one and brings the press more blackmail than enough. Even small town papers suffer for similar reasons, for when "Joe Jones" makes a statement at a public meeting that "Joe Jones" thinks should be published but with whose thought the editor disagrees, "Joe Jones" immediately has a kick against the press and the worst name is not bad enough for the paper.

## THE RINK AND IT'S FLOOR

The STAR believes that either the band or the city council would be doing a mighty good thing in constructing a permanent floor in the rink that could be laid down in sections and taken up again when necessity requires. With a nice wood floor replacing its "muddy bottom", the rink could be utilized for many purposes. Should the band go ahead with its project of laying down a temporary floor, as at present arranged, it will be outlaying money for a floor that will be used for a couple of times. In other words the band will pay an amount approximating \$40 for each occasion the rink is used, that is, if used for the two dances as at present proposed. A permanent rink floor, constructed in sections and the property of the town, would certainly add much to the usefulness of the rink. It perhaps would make a start in the solving of the problem: "What can we do with the rink in the summer time." The councillors should give the matter thought.

## NOTES AND COMMENT

The rumors going the rounds that Herr Wilhelm von Bryan is shortly to be awarded the Iron Cross. Certainly it has been given a man for far less.

The Twelfth Day of July, in other words "Wainwright's Red Letter day of 1915," is not far in the distance. All committees who have in hand arrangements for the big celebration, should not permit time to be lost in the completion of the same. There is much to be done and all concerned should remember the fact.

Wainwright residents are asked to bear in mind the fact that they will be called upon to decorate their particular homes with as much bunting as possible on July 12. This private residents, as well as the committees, will do well to make every preparation for Wainwright's big day.

The story which appears on the front page of this issue in reference to the safe arrival in England of Wainwright's soldier boys, will be read with pleasing satisfaction by all. The safe transportation of all troops from this dominion to the Motherland has been a wonderful accomplishment for despite German submarines and the like, nothing has hindered the progress of our boys when once they set sail for England. Above all, the fact clearly emphasizes that "Britannia still rules the Waves".

### Edgerton

The baseball team are not turning out to practice as much as they should if they want to play against Wainwright on July 1st. If all the members would attend the line-up would be plenty good enough to do battle with the Wainwright boys.

School closed on Friday of last week for a period of six weeks. The results of the examinations will be published in this paper about the first week in August.

Every preparation is being made here for a great day on Thursday. The local band will provide music during the day, while baseball games, races and other athletic events will form part of the days programme.

The usual Intercession Service in the Church of Engadon on Thursday at 7.30

### SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, and the Yukon territory, the North-west Territories and in a portion of the province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 an acre. Not more than 2,500 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked by the applicant himself.

Each application must be accompanied by fee of \$5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents or ten.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not operated, such returns shall be furnished at least once a year.

The lease will include the coal mining right only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of District.

W. W. COLE, Deputy Minister of Mines

TO RENT--Sewing machines, Apply T. E. Wilcox, Singer Agent, Wainwright Box 60

FOR SALE OR RENT--We have a good house which we sell for half the cost of construction, payable \$10.00 per month. This is a snap. The Imperial Lumber Co. Ltd. 304

TO TRADE--cash and clear title lots in coming cities of the great Peace River country to trade for clear title quarter section. P. O. Box 322 Calgary, Alberta. 7-0p.

### Jarrow

An interesting wedding took place at the home of Mr. B. A. Whitford on Tuesday June 22nd at Phillips. When their eldest daughter Florence May was united in marriage to Harold S. son of Mr. and Mrs. David Whitford of Jarrow. The bride looked charming in a robe of white crepe mousseline trimmed with Point Venice lace with veil of tulle and wreath of forget-me-nots and carried a bouquet of American beauty roses. After the wedding feast, amid the good wishes of a host of friends, the happy couple left for their cosy home in Sunndale.

The concert held in Batt's school under the auspices of the "Jarrow Stars" proved a grand success. The local talent provided the program and too much praise cannot be given the baseball boys who provided many enjoyable stunts. The gate receipts amounted to \$30.

We are sorry to report Mr. N. Lindholm on the sick list.

Mr. B. A. Loring intends erecting a fine stone house in the near future.

### Irma

E. C. McDowell who was a visitor in Wainwright on Friday, reported business conditions in Irma to be good at this time. He said the crops were in a very satisfactory condition and were making fine progress. A large increased acreage is also under cultivation this year. Mr. McDowell stated that far more machinery had already been sold to farmers during the present season than during the whole of 1914. The company he represents has already sold no less than six threshing outfits as well as other machinery. It is expected also, that four more outfits will be sold during the next few weeks.

### Hope Valley

The local branch of the United Farmers held its annual picnic at Moore's Lake recently. The afternoon was spent in the running off of a varied race program and from the enjoyment derived from ball games, football, swings, a shooting gallery, all with good money prizes for the winners. The day was warm and the booth did excellent business. A conclusion was brought to the day's program by the serving of an enjoyable supper.

## MONEY TO LOAN

## The Mystery of the Ravenspurs

By Fred M. White  
Ward, Luck & Co., Limited  
London, Melbourne and Toronto

(Continued)

"Well, I suppose we must part," she said. "Really, it seems years since I spoke a gentle word to you. I have been here for days. I have been offered absolute rest and quietness for the benefit of my eyes and my mind. I am getting it. Would you take pity on my loneliness and come to see me?"

"Many an older man than Geoffrey had been excused from yielding such a request. Those eyes were so dark and pleading, and the man was young. Besides, he had an excuse. Had his eyes been so dark, this thing and was it not intended to bring about an introduction? Besides, one found that room, it might be possible to find something that in the future would yield great results."

"I shall be only too pleased," Geoffrey murmured.

"Then come along," Mrs. May said gaily. "If you are fond of a good cup of tea, then I have some of the most perfect in the world."

She led the way to the old-fashioned drawing room, which she had redecorated with beautiful flowers. The still furniture looked still no longer. The hand of an artist's woman had been here and the whole aspect was changed.

"You should have seen it when I came here," Mrs. May smiled as she followed Geoffrey's glance. "It was like a condemned cell. The room was things of price here. A little alteration and a few flowers—a what a difference flowers make!"

She pointed to her own floral decorations. The room was ablaze with them and the whole aspect was changed.

There was not a single bloom of any other kind to be seen.

"They are my little beauties," Mrs. May laughed. "I never have any other here."

"You do not care for white flowers?" Geoffrey asked.

"I abhor them. They suggest beautiful material cut out in their primed, childish, and the tomb, and all kinds of things. I would not have one in the house."

Geoffrey was discreetly silent. Remembering the hundreds of white flowers he himself had seen in this very room not so long ago, this speech staggered him. In a second, he was watching Mrs. May light a silver lamp under a silver bell, after which she excused herself and went to the scullery to fetch the tea.

Geoffrey picked up an album and turned the leaves rapidly. They were soldiers, one or two native Indian officials, a great number of young people, professional beauties, and the like, and—Mrs. May!

Yes, her fair, tender face smiled from the embossed, richly gilt page. The picture had been taken some years ago, but the features were those of the book and walked over to the window. Surprised, she looked up and came upon him, hitherto, hitherto was staggering.

"Then Mrs. May returned he himself again. He could answer her questions gaily and smoothly. It was only when he was on his way home again that he recollected how much information he had gained and how little he had got in return.

"You must come and see me again," Mrs. May said. "I shall see you on every evening and dine with me. Say Thursday. Unless I hear from you to the contrary, I shall see you on Thursday at seven. A primitive time, but then we are in the country."

She may be certain, Geoffrey said, "I shall come if possible. Good-bye, Mrs. May. In ordinary circumstances, you people would be called upon to be very good."

What a million mothers avoid

More than a million children are killed every year by the use of poison. The danger is so great that it is a matter of life and death to the children of the world.

"An arsenic poison is as dangerous as the most deadly of poisons. It is a matter of life and death to the children of the world. The danger is so great that it is a matter of life and death to the children of the world."

How is the milk made?  
Taint made; it's milked.

any circumstances you people would be called upon to be very good. Mrs. May pressed Geoffrey's hand with gentle sympathy.

"You have my real regrets," she said. "What a horrible thing it is to think that you are so poor as to help it. Good-bye."

Geoffrey found Ralph at the entrance to the castle gate. There was a queer smile on his face, a smile of amused expectation.

"You found her charming?" he asked.

"And clever," said Geoffrey. "I guessed your plot, uncle. She is very clever."

"The cleverest woman in the world, the most wicked, the most unscrupulous. Of course she asked you to dinner, and of course you will go. No one is to know of it, mind."

"Uncle, how did you guess that?"

"No, I found it out by accident. I saw her connected with her."

"Very closely, indeed. She is married, and she is a very clever woman. She is a very clever woman. She is a very clever woman."

## To Raise Sunken Ships

Canadian Engineer Has Originated New Methods Which Have Been Sent to Admiralty

A method for the raising of sunken ships of any tonnage, however badly injured, from the depths at which a diver can work, has been considered recently by a committee of maritime authorities of the Canadian Navy.

The proposal, which is of great interest and value, is the result of long and careful study and practical experience, both by a marine engineer and an engineer on the part of Capt. A. G. Midford of Toronto.

## Farming in the North

Wheat From the Peace River Valley of Good Quality

When the first crop of wheat from the Peace River Valley was harvested, the Canadians of that time with a mass of new but scientific information regarding the area now included in the province of Alberta. The surveyors' reports showed that among the various "passes" through the Rocky Mountains that might be used in the construction of a transcontinental railway, three were more available than any of the others; the one used later for the Canadian Pacific main line, the one used recently for the National Transcontinental and Canadian Northern lines, and the one through which the Peace River runs from west of the Rockies east toward Lake Athabasca. Of these three the first was from a railway engineer's survey, the second from a military survey, and the third from a survey of the Peace River valley was the easiest. The only objection to the last named was the fact that the river was too shallow for a railway line.

The proposal, which is of great interest and value, is the result of long and careful study and practical experience, both by a marine engineer and an engineer on the part of Capt. A. G. Midford of Toronto.

## Homestead Leniency to all Soldiers

---

### Order-in-Council Broadened to Cover

**All Fighting With Allies**  
An important order-in-council has been passed at Ottawa to provide for cases where a homesteader, who is a member of the Canadian expeditionary forces, or the British or Allied forces, loses his life or suffers a disability.

The act, as it stands, only gives free patent at once if a Canadian volunteer is disabled by wounds, but in the opinion of Mr. De Rose, as it is

of the empire his estate should be relieved of any further duties. Under the act, if a homesteader dies before completing duties further residence is waived, but cultivation is necessary.

The order in council also provides for any homesteader serving with the Canadian, British or allied forces counting active service as residence. The act only allows this at present to the Canadian forces.

No child should be allowed to suffer an hour from worms when prompt relief can be got in a simple but strong remedy—Mother Graves' Worm Expeller.

"The total catch in British shipping of the seven German cruisers, all now accounted for, was 67 vessels sunk, representing \$3,455,000 in value," says the London Times. The cruisers were the Emden, the Karlsruhe, the Kron-

Prinz, Wilhelm; Prinz Eitel Friedrich, the Königsberg, the Dresden, and the Leipzig.

"In proportion to the total values afloat this is a trifling sum—merely 1 per cent. of the value of the imports and exports of the United Kingdom

"One point is worth mentioning. The German vessels captured by the British navy have not been lost to the world, for they have quickly been employed in trade again. The Brit-

ships sunk by the Germans are an absolute loss to the world; and if their policy were attended with real success it would have the effect of raising prices all round, including those in neutral countries, and in Germany itself."

Keep Minard's Liniment in the house.

An Inch of Rainfall

An inch of rainfall means much

the farm lands. It is equivalent of 603 barrels of 45 gallons each to the acre, and weighs over 113 tons. What a job that would be for the farmer if he had to draw it to the land in tanks holding a ton each! One of the marvels of meteorology

that seemingly light clouds and the atmosphere are capable of handling such a vast amount of water and so distributing it that it falls on the crops so gently that only good results. And an inch of rain is not a very heavy fall either. W.D.

**Fortunate**  
A New York lawyer tells of a case tried in a fishing town of Massachusetts, during which the chief witness, under cross-examination, refused to state the extent of his good fortune.

"But, your honor," said the man, "I have no gross income. I am a fish-

**DOCTORS DID**

## NOT HELP HER

But Lydia E. Pinkham's Veg-

**etable Compound Restored  
Mrs. Bradley's Health—  
Her Own Statement.**

Winnipeg, Canada. — "Eleven years ago I went to the Victoria Hospital, Montreal, suffering with a growth. The doctors said it was a tumor and could not be removed as it would cause instant

"After I came home I saw your advertisement in the paper, and commenced taking Lydia E. Pinkham's Vegetable

Compound. I took it constantly for two years, and still take it at times, and both my husband and myself claim that it was the means of saving my life. I highly recommend it to suffering women."—Mrs. ORILLA BRADLEY, 284

Why will women take chances or drag out a sickly, half-hearted existence, missing three-fourths of the joy of living, when they can find health in Lydia E. Pinkham's Vegeta-

For thirty years it has been the standard remedy for female ills, and has restored the health of

who have been troubled with such ailments as displacements, inflammation, ulceration, tumors, irregularities, etc.

**If you want special advice**

write to Lydia E. Pinkham Medicine Co., confidentially, Lynn, Mass. Your letter will be opened, read and answered only a woman, and held in strict confidence.

# VOTE "NO"

On the 21st July  
and save your  
INDEPENDENCE AND SELF-RESPECT

Those who are intoxicated with their own  
intemperate thoughts, ask you  
to help them

When you vote "NO" on July 21st you administer a well merited rebuke to intolerance, selfishness, and self-seeking; to bitter, intemperate destructionists. They would saddle you with an impractical legislation because it means a mortgage, empty and brief success for them. They would deceive you with endless abuse on a subject which is too broad for their rutted mentalities to grasp. They refuse to see the financial burdens which their actions will bring on the tax-payers of Alberta if the Liquor Act carries.

They are not capable of creating sane legislation

VOTE "NO" ON THE 21ST. JULY

## DISTRICT COURT AT WAINWRIGHT

Sittings of the district court held in Wainwright on Wednesday and Thursday of last week with Judge Taylor presiding, brought out many cases for hearing. The following is a synopsis of the results, the first named being the plaintiff in each case: G. H. Beaudry Company vs. Ed. James for payment of account amounting to \$54.30. Judgment awarded for full amount; Beaudry vs. Cassidy and Coolin for unpaid debt. Judgment awarded for full amount of claim \$56.40; Weinrich and Harman vs. A. D. Schaffner, action in regard to a note of \$52.10. Judgment awarded for full amount. In the case of Bishop vs. Watkins, the former claiming damage for wrongful possession of straw, judgement was reserved. This fact also met the case of Hunt vs. Maraszczka which was laid by plaintiff in reference to a sale of hogs.

Floods are general throughout the province and much property damage is reported in both Edmonton and Calgary. As a result of the flood in Edmonton, some 800 families are homeless while damage is expected to reach a total of three quarters of a million dollars. Every river and creek flooding its way from the Rockies in a swollen condition. The Battle river to the west of this town has risen several feet and is a raging torrent at this time. Everything possible is being done to assist the homeless in Edmonton and Calgary.

Rev. Harry Assiter, rector of the Anglican church, will deliver the address of welcome to the visitors on July 21st. His address will precede that to be given by Rev. Mr. Pomeroy of Tofteld. Both will be given from the balcony of the Wainwright hotel.

An attractive window display of "dollar" specials has now been completed by the G. H. Beaudry Company. The assortment of bargains is a varied one and should attract particular attention. The prices are low and the quantities good. Take a peep at the window.

Recruiting for the 68th Battalion of the Canadian Expeditionary force, has commenced in Edmonton. The regiment will be made up of the regulation number of 1000 officers and men. No trouble is expected in getting the requisite number of recruits.

LOST—One black hog, weight 175 lbs. strayed from stockyard. Person returning to owner will be suitably rewarded. Stuart and Peterson. 9-1p.

Miss Bessie Parsons will leave town on Monday for Edmonton, from where she will proceed to Camrose there to enter the Normal school. Miss Parsons will be away until January of next year.

## Notice to Creditors

IN THE DISTRICT COURT OF THE DISTRICT OF SETTLER.

IN THE ESTATE OF OLE JENSEN BERG, LATE OF COMPEER, IN THE PROVINCE OF ALBERTA, DECEASED.

## THERE ARE NOT ENOUGH UNION JACKS IN CANADA

In other countries on days of rejoicing or National Anniversaries flags are unfurled from almost every house-top or window. Canadians are just as loyal, but unfortunately they find themselves short of flags. In almost every city in Canada there is a movement on foot now to see that the old flag is floating from every Canadian home. The newspapers have been asked to assist in the distribution. The STAR has agreed to undertake the distribution in this district and our readers can secure a real good Union Jack, in fast colors, size 5 x 3, for only

\$1.10 EACH

At this price there is no reason why every home in the district should not have a Union Jack floating on all occasions in future.

WAINWRIGHT STAR OFFICE.
